JASHORE - 7400, BANGLADESH

### Objective

Seeking a challenging position in Full Stack Development to leverage my expertise in React, JavaScript, and MongoDB. Aiming to contribute to innovative projects at the intersection of scalable web applications, user-centric dashboards, and practical problem-solving in fields such as SaaS platforms, eCommerce solutions, and admin panel development.

### Projects

- **Drofy: A Drop-Shipping Platform**
  - Developed image-to-product search functionality to enable easy product discovery.
  - Automatically earn commissions from your referred users when they make a sale up to 3 referral levels.
  - Other Features: Separate dashboards for admin and users, support ticket system for customer service, integrated payment gateway, courier service integration, in-app fraud detection for suspicious customers, and more.
  - Tools: Next Js (Typescript) | Zustand | V0.dev | Prisma | Next Auth | Bkash | MongoDB

- **Becha Kena: A scalable Multi-Vendor E-commerce Platform**
  - Developed subscription-based access control system with seamless payment integration.
  - Developed in-app product boosting functionality with multiple variations and duration options to maximize customer reach.
  - Enabled users to save favorite vendors or products by following them for quick access and updates.
  - Dedicated dashboard for managing orders, customers, inventory, and more. management's etc.
  - Super admin dashboard to manage the entire platform with role-based access control.
  - Tools: [Next Js (Typescript) | Zustand | V0.dev | Prisma | Next Auth | Bkash | MongoDB ]
